JOB POSTING

Job Summary:

Functioning within a consultation model provides psychological services to patients at St. Mary's of the Lake Hospital through collaboration with inter-professional teams.

The ultimate goal is to help patients achieve their highest level of functional independence and to minimize disability during their hospital admission and to promote a successful discharge.

Qualifications:

- Doctoral level degree in clinical, rehabilitation or neuropsychology
- Holds a Certificate of Registration Authorizing Autonomous Practice with the College of Psychologists of Ontario or eligible for Certificate of Registration
- Minimum 2 years related experience in provision of neuropsychological assessment and treatment planning
- Experience in provision of group psychotherapy, an asset
- Current or eligible for clinical supervisor/adjunct status at Queen's University
- Demonstrated ability to prioritize work effectively, manage a full workload and meet deadlines in a busy environment with frequent interruptions
- Demonstrated effectiveness in diagnosis, evaluation and assessment of cognitive behavioural and psychological conditions
- Demonstrated effectiveness in providing interventions to individuals and groups, including psycho-education, behaviour programs and psychotherapy
- Demonstrated effectiveness in the design, implementation and direction of neurobehavioral assessment and strategies
- Demonstrated effectiveness in identifying and analyzing issues that arise in relation to the client, making recommendations and communicating with the inter-disciplinary team on solutions
- Demonstrated alignment to patient and family-centred care
- Demonstrated excellence in interpersonal, written and verbal communication skills including, ability to communicate in a timely manner and according to organization policy
- Demonstrated professional demeanour and behaviour
- Demonstrated knowledge of relevant ethical, legal and professional issues
- Ability to work in a safe manner as per legislation, policies, and guidelines
- Demonstrated willingness to learn and acquire new skills
- Demonstrated good physical condition to meet the physical demands of the position

Working Conditions:

- Extended periods working at a desk, viewing a computer monitor, keyboarding and electronically accessing information
- Extended periods of time listening attentively
