Please note that this process may take a few days up to a few months to complete.

Job Summary:

To provide direct professional nursing care for patients requiring complex mental health services. Utilizing the principles of the nursing process, the RN will implement autonomous nursing actions to ensure that services provided promote positive patient outcomes. The RN, in partnership with the patients and their families and in collaboration with the clinical team, will coordinate and support the patient's journey toward maximum independence and wellness.

Qualifications:

- Diploma in Nursing and current unrestricted Registration with the College of Nurses of Ontario
- BNSc preferred
- Experience in an inpatient psychiatric setting
- Current CPR certification
- Demonstrated excellent interpersonal and communication skills; verbal, nonverbal and written
- Evidence of ability to establish and maintain professional relationships with others in the multidisciplinary team
- Demonstrated knowledge of and skill in the care of patients with severe and persistent mental illness; inclusive of assessment; problem identification and diagnoses; current treatment modalities and evaluation of client outcomes
- Effective decision making skills assessing a comprehensive range of variables to interpret, analyze and solve problems
- Demonstrated ability to evaluate theoretical and research-based approaches and effectively apply to practice. Demonstrated knowledge of the Mental Health Act of Ontario and Mental Health Reform as well as skill in application of the legal implications and of the inherent principles
- Knowledge and experience in applying the principles of Psycho-Social Rehabilitation including assessment and treatment modalities for schizophrenia, psychosis, depression and mood disorders
- Demonstrated relevant skills and experience an asset
- Certification with the Canadian Nurses Association in the Mental Health/Psychiatry specialty is an asset
- Demonstrated leadership abilities
- Demonstrated adaptability and flexibility to respond to emerging and dynamic program needs
- Ability to think quickly during crisis situations
- Proven ability to comply with established standards
- Demonstrated commitment to providing client-centred care following the established principles of a Recovery Model of care.
- Applicable experience in computer applications/software

Working Conditions:

- Sitting, standing, or walking for extended periods during a shift.
- Possible exposure to agitated and disruptive patients.
- Exposure to possible infectious diseases or other undesirable environmental conditions.
- Ability to carry out physically demanding duties.
- Working day, evening and/or night shifts

For a complete list of duties and qualifications, please obtain a job description from Recruitment & Staffing.
